

Quality Policy Statement

The vision of Express Engineering is to continue to strengthen its offering to be a prominent supplier to multisector industries including Aerospace, Oil & Gas, Power Generation and Nuclear.

It is the policy of Express Engineering to satisfy its customers by supplying products that fully comply with customer, statutory and regulatory requirements.

The Company will continuously strive for recognition as a "WORLD CLASS COMPANY", investing in the training and development of its employees and maintaining a total quality culture.

Therefore, it is Company Policy to organise its systems of management so that they comply with the requirements of BS EN ISO 9001:2015, AS9100 Rev D, and ISO 3834-2:2005 and to involve every function and every individual in the pursuit of quality to meet and exceed the needs of the business and its objectives.

All personnel are required to comply with the quality policy, systems, and procedures and contribute to the effective working and continuous improvement of the Quality Management System.

The Quality Policy, and the objectives are reviewed for suitability at Quality Management Review meetings, which are held at least annually.

This Quality Policy Statement is authorised for issue by: -
