

Express Engineering (Gateshead) Limited

Tender Notification

Tender Title: Weld machines segregation

Information:

Express Engineering (Gateshead) Limited ("Express") are an Oil & Gas equipment manufacturer based in the North East of England. With nearly 50 years of machining and assembling critical subsea components and systems experience we are a market leader in the specialised products we produce. In recent years, Express has delivered strong growth and currently employs over 200 people all at its Gateshead facilities.

Tender requirements

- Provide possible solutions to the segregation of welding equipment from CNC machines within the same shared factory space
- Primarily this is required for the safety of all staff in the shared area
- The solution must also be completely sealed to minimise contamination between the two areas
- The solution must be capable of housing personnel access doors, access for parts moving in / out of the area and viewing panels

In shortlisting any applicants we will take into consideration:

- a) The experience of the applicants in the sector concerned.
- b) The size and infrastructure of the applicants' business.
- c) The technical and professional ability of the applicant.

Full details of weld machine segregations are provided in tender documentation which will be issued to interested parties wishing to tender.

Should you wish to express an interest in tendering and receive a copy of the tender documentation then please email Richard.Williams@express-engineering.co.uk

Estimated timescales:

Contract Start Date: 24 January 2022
